

ZHAOXIANG LAN

ELECTRICAL ENGINEERING STUDENT

540-514-1612
LZX030607@GMAIL.COM
PHILADELPHIA, PA

EDUCATION

Temple University College of Engineering

Bachelor of Science in Electrical Engineering

Philadelphia, Pennsylvania

Grad Expected Date: Aug 2027

Community College of Philadelphia

Associate of Science in Engineering, GPA:3.86

Philadelphia, Pennsylvania

Grad Date: Aug 2025

EXPERIENCE

Undergraduate Research Assistant

Advisor: Dr. Li Bai

April 2026 - Present

- Assist in building a multi-agent counseling chatbot for adolescents.
- Develop and test AI agent workflows for guided questioning and response evaluation.
- Help design a judgment system to detect unsafe, inaccurate, or inappropriate outputs.
- Support local model setup and Open WebUI testing.

PROJECTS

Robot Dance Routine

Temple University

September,2025

- This project programs the Mini Pupper robot dog with ROS2 and Python to perform dance movements, supported by AWS IoT, Docker, and AI tools.

Movie Data Explorer

Temple University

December,2025

- Built a Python movie data explorer to search films, actors, genres, ratings, and recommend similar movies.

Door Usage Monitor

Temple University

April,2026

- Built an IoT door monitoring system using ESP32, FastAPI, and MongoDB to track door activity and visualize usage data on a web dashboard.

CLUBS

Temple University Institute of Electrical and Electronics Engineers (IEEE)

Member

Philadelphia, PA

Sep 2025 – Present

IEEE-Eta Kappa Nu (IEEE-HKN), Temple University Chapter

Member

Philadelphia, PA

Apr 2026 – Present

SKILLS & ABILITIES

Programming: Python, C++

Tools: FastAPI, MongoDB, Open WebUI, Autodesk Inventor, AutoCAD, Microsoft Office

Language: Chinese (Verbal and Written Proficiency)
